

Yarraville Terminal

Yarraville Terminal is strategically located in the inner western suburbs of Melbourne with convenient access to major roads. It serves a large tributary area covering all of Victoria, parts of South Australia and southern NSW.

History and Investments

- Yarraville Terminal was built in 1926 and has been upgraded over the years to keep pace with customer demands and operational standards. Fuel can be shipped into/out of the terminal via Holden Dock (Port of Melbourne) and the terminal is also connected by pipelines to Altona Refinery and Shell's Geelong Refinery
- Investment at the terminal has been significant in recent years to undertake major maintenance work in the tank farm and pipelines, to introduce ethanol blending and storage facilities and to comply with regulatory requirements

Terminal Overview

- The terminal load rack has eight bottom loading bays with 30 loading arms for Diesel, Petrol and Jet Fuel. At the load rack, up to eight trucks can be loaded simultaneously with various fuels stored in the tank farm
- The terminal has 20 tanks in service with a combined overall capacity of approximately 120 million litres

Operating Details

- Open 24 hours per day, 7 days a week, 365 days per year
- Manned operation: Mon–Thu 05:00–02:00; Fri 05:00–15:00; Sun 15:00–02:00; including public holidays
